¹ Health Service

Variations from State Health Regions

There are a number of differences between the health region boundaries used in this Atlas and the current government defined health regions for the State of Queensland and for the Northern Territory.

In Queensland, the government defined health regions split the Shire of Cook between the District Health Services of Cairns and Cape York. In this atlas, the Shire of Cook has been grouped only with the District Health Service of Cape York. Furthermore, the Shire of Carpentaria is assigned only to the Mount Isa District Health Service in this atlas; however the government boundaries indicate that it should be split, (north and south at the Gilbert River) between the Cape York and Mount Isa District Health Services.

In the Northern Territory, the SLA of Litchfield (S): Part A is defined as part of Darwin Urban Health Service, however in this atlas it is shown as being part of the Darwin Rural Health Service. The other variations are minor, and occur along the border between the Darwin Rural and Katherine Health Service areas, at the far eastern border of the Katherine and Barkly Health Service areas, and at the far eastern boundary between Barkly and Alice Springs Rural Health Service areas. These latter variations in the boundaries are small and affect minimal population numbers.
