

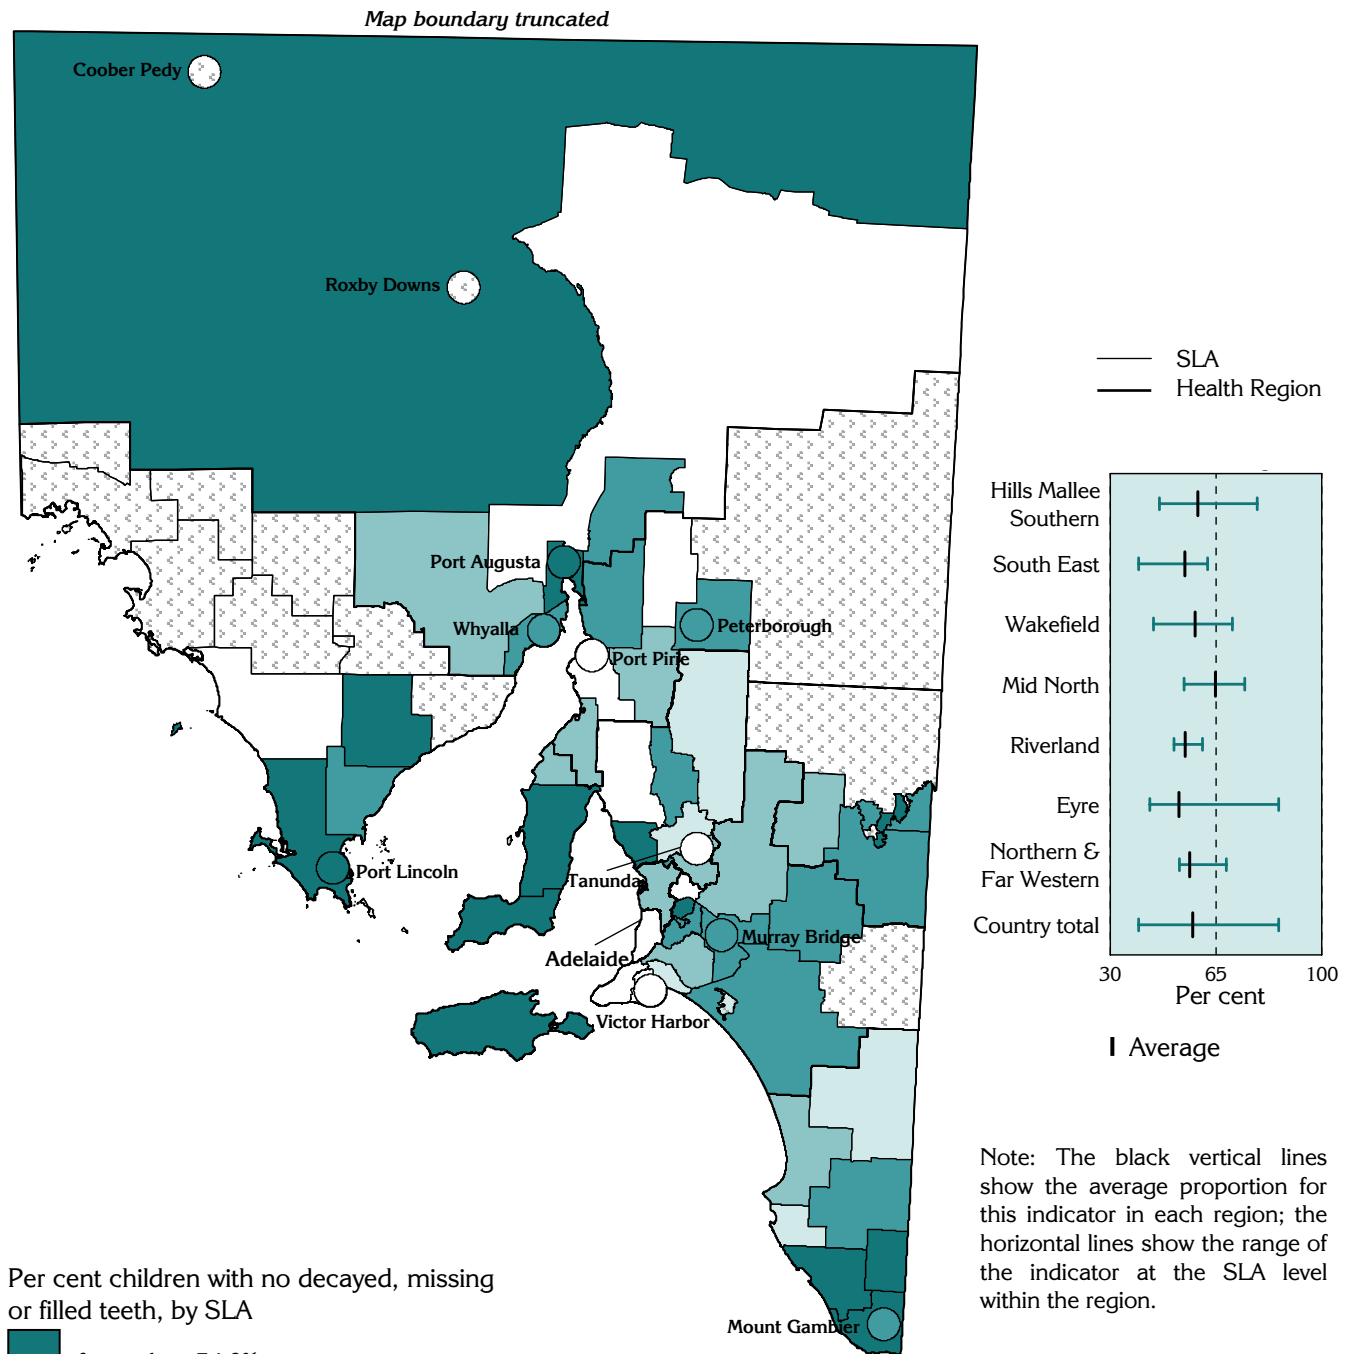

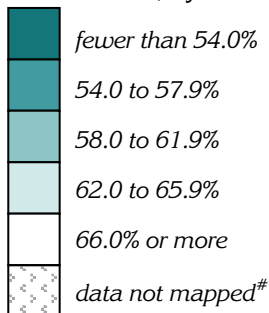

# Map 6.14

## Dental health of 12 year old children: no decayed, missing or filled teeth, South Australia, 2002 to 2004

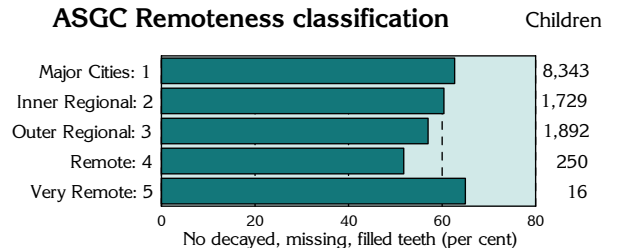

Per cent children with no decayed, missing or filled teeth, by SLA

<sup>#</sup> Data were not mapped because the SLA has a population of less than 100 or there were fewer than five children

Note: The black vertical lines show the average proportion for this indicator in each region; the horizontal lines show the range of the indicator at the SLA level within the region.

### ASGC Remoteness classification
